Subject: TechPlan Approved by PDE Reviewer

City Charter High School:

Congratulations! Your technology plan for the fiscal year(s) July 1, 2007 - June 30, 2010 has been reviewed and received final approval, on 4/26/2007 2:38:47 PM, from the Pennsylvania Department of Education. The plan was reviewed using criteria established by the guidelines set forth in the federal E-rate program, the federal NCLB Act Title II Part D (Enhancing Education Through Technology), and by the Pennsylvania Department of Education.

Please note that although your plan has adequately addressed the sections required on a technology plan, the reviewers/approvers have not compared the services and/or initiatives you have described in your technology plan to your technology grants and/or E-rate applications. When applying for funds or discounts through programs that require an approved technology plan, you are responsible for ensuring that your application aligns with your technology plan. If it does not, you may at any time during the years for which the plan was approved amend your technology plan through the eTechPlanner. Be advised E-Rate and other program administrators may request a copy of your technology plan to assess its correlation to your funding application.

Please retain a copy of this letter with your technology plan for your records.

Again, congratulations on this achievement.
L. Michael Golden, Deputy Secretary
Office of Information and Educational Technology
Pennsylvania Department of Education
